

 TECHNOCRATIC UNION HUMAN RESOURCES DIRECTORATE Public Understanding Division	Public Explanation Requisition Use this form to requisition an approved public explanation for an observed event. One explanation per event. Do not construct your own explanation; improvised explanations are the leading cause of second events.	CD - 4 Rev. 19 · Effective 02/2026
		Approved for use: all Constructs Retention: permanent Control No. HRD-0175-CD4

Explanations lose approximately 40% effectiveness per news cycle. File immediately. If the event has not yet occurred, filing is still encouraged, and noted.

NOTICES.

- Explanations are provided as-is. The Union does not warrant that the explanation is more plausible than the event. It rarely needs to be.
- Approved explanations become the record of the event upon deployment. Personnel whose recollection differs from a deployed explanation should consult Form MX-2, or wait.

3. Requests under item 13g are fulfilled from current inventory. Recent availability has included sinkhole (limited), meteorological balloon (restocked), and municipal art installation (one remaining; anchored).
4. Denied requisitions are not a determination that the event requires no explanation. They are a determination that the event requires no event. Q Division will contact you.
5. Effectiveness figures at the top of this form are averages. Your explanation's individual performance may vary and will be individually reviewed, as will yours.
6. The Union thanks you for your commitment to public understanding. The public understands more every day, and less every night, and the ratio is managed.
