

 TECHNOCRATIC UNION OPERATIONS DIRECTORATE Amendable Coexistence Program	Amendable Coexistence Certification Certifies and renews a sanctioned liaison relationship with an Amendable Coexistence contact. Complete one form per contact. Recertification lapses are treated as a lapse in judgment, not a lapse in paperwork.	CC - 5 Rev. 8 · Effective 05/2026
		Approved for use: all Constructs Retention: permanent Control No. OPS-0035-CC5

File initial certification before first sanctioned contact. Renew not later than the cadence specified in Part IV. Do not allow certification to lapse; see Notice 2. HE contacts operating without a current CC-5 on file are, for all administrative purposes, unsanctioned.

NOTICES.

- Certification does not constitute endorsement. It constitutes a record that the arrangement was known, and to whom.
- Recertification lapses are treated as a lapse in judgment, not a lapse in paperwork, and are reviewed accordingly.
- An HE contact who terminates services without notice should be reported on Form CC-5(a) (Discontinuance), not left to expire quietly on this form.
- Item 11f: coordination with an NWO liaison is mandatory, not advisory. Do not attempt continuity-of-narrative support unassisted.
- Do not itemize consideration exchanged for services rendered. The Union does not require the ledger; the Union requires that a ledger exists.
- The Union thanks you for keeping this arrangement on the books, where it can be managed, rather than off them, where it would merely continue.
