2. Personnel at SDS Degrees 4 through 6 are restricted from premium-tier equipment. If you do not know your current Degree, this is itself informative; requisition accordingly.
3. Sleepteaching modules count as equipment. Knowledge issued via sleepteacher is due back at end of mission in good condition, ordinary forgetting excepted.
4. Requisitions sourced through personal contacts are discouraged. Favor and reinforce connections within your newlife. Your newlife has been selected for you with care.
5. Implanted Devices are serviced at accredited facilities only (see Form UH-7, Part IV). Tampering voids the operative.
6. The Union thanks you for asking first.
