Acknowledged: ☐ Yes ☐ Yes (the operative is reminded that this item has one option)	

PART V — CERTIFICATION			
I certify that this report is complete to the best of my knowledge, and consent to verification of the phrase "to the best of my knowledge."			
12. SIGNATURE OF REPORTING OPERATIVE	13. DATE	14. COGNITIVE HYGIENE INTAKE OFFICER	15. DATE

NOTICES.

- Self-reporting within 72 hours of exposure is treated as Neglect at worst (Orange Handbook §12.2). Reporting after 72 hours is still encouraged, and still counted.
- A negative screening result clears the operative; it does not clear the meme. Cleared personnel may notice reduced recollection of Part II. This is the treatment working.
- Reporting a colleague's symptoms requires Form MX-3 (Memetic Exposure Report, Third Party), available at all Cognitive Hygiene stations, break rooms, and exits.
- Do not discuss this filing with amalgam-mates, including to reassure them. Reassurance is a vector.
- Personnel who have filed three or more MX-2 reports in a calendar year qualify for the Sentinel Award (lapel pin; monitored).

Early reporting is the highest form of self-care. The Union thanks you for your candor!
